

HOST THE FLOCK

Show that your business cares about Martin County waterways!

Demonstrate your business's commitment to clean water by hosting an artistic and educational flamingo flock! Our traveling flock of beautifully painted lawn flamingos raises awareness about lawn care products and how they harm local waterways. Each custom painted, one-of-a-kind flamingo was created by a local artist donated their time and talent for clean water. You can host these flamingos in your place of business, at no cost to you! The flamingos will come with an accompanying sign as well as brochures that describe the program and how homeowners can reduce their yards chemical pollution. These flamingos will be traveling around Martin County from February to June, teaching people about Martin County's fertilizer ordinance. They can be displayed inside your business in a pot with soil, sand or any soft substrate.
